## MAJOR IN **TEACHING IN THE CHALLENGED AREAS**

Under the project FORTH (Formation of Teachers in Challenged Areas in the Philippines), co-funded by the European Commission and in partnership with the Erasmus+ program, USLS is now offering Master of Arts in Education with a specialization in Teaching in the Challenged Areas (MAED-TCA).

Five Philippine universities -University of St. La Salle (USLS), Polytechnic University of the Philippines (PUP), West Visayas State University (WVSU), University of Southeastern Philippines (USEP), and Centro Escolar University (CEU), collaborated to develop the MAED-TCA curriculum. Three significant European universities also collaborated to create the program, University of Deusto in Italy, the University of Bologna in Italy, and the University of Groningen in the Netherlands.
